The **11** alphanumeric code of Indian Financial System Code (**IFSC**) is structured in a pattern where the first four characters represent the name of the bank, while the last six characters represent the branch of the bank. The fifth character is generally **0 (zero)** reserved for future utilization.

i. The IFSC is an 11 digit alphanumeric code, with the first four digits identifying the bank, fifth is numeric (kept 0) and the last six digits represent the bank branch. Example: IFS Code of a branch of Punjab National Bank in Delhi is PUNB0614800.

ii. It is an alphanumeric code that uniquely identifies a bank-branch participating in the two main Electronic Funds Settlement Systems in India: the Real Time Gross Settlement (RTGS) and the National Electronic Funds Transfer (NEFT) Systems.

Aspirant Queries

Aspirant: Does Affairscloud covers all the Current affairs topics related to examinations?

Affairscloud: We Guaranteed All the Important topics related to examination are covered in Our Daily CA content and Daily CA Quizzes.

Aspirant: Why is there a delayal in news?

Affairscloud: As some of the major news sites doesn't provide the required data on the exact day, we take extra time for important data to be presented to the aspirants on the examination basis to ensure nothing is missed.

Example: In 'Important Days' topics the International Organisations publish their reports and Rankings in the evenings, to make sure every data is covered, we delay the topics to the next day
